

The Arizona Quarterly Spine SpineScottsdale Physical Therapy Newsletter

Patient Edition

A note from Shane...

We started SpineScottsdale Physical Therapy in December of 2009. When we started, it was just me and Emily. A lot has happened in the past 2 years: We had a little girl (who is now 8 months old!), we then brought on Brittney...then Gina joined us...we have gone through 3 fish (Zarina the VI, VII, and VIII)...we recently added Chris and Bryan and Linda...and we are still in that little space...however...

I'm proud to announce we are finally expanding! ☺ Same location...more space! The tenant I'm sharing space with is moving out...so we are taking over the entire space in the same building. We plan on adding more treatment tables...more strength equipment, cardio equipment, a traction room, and a coffee station...for Brittney to take her breaks.

We anticipate that we'll be expanding in about 4-6 weeks...so once we finalize the move...we will invite you to come by our clinic to celebrate our new space!

Emily and I thank each and every patient for giving us the opportunity to be your physical therapy provider!

Certified Ergonomics Assessment Specialist

I recently became a certified ergonomics assessment specialist through the Back School of Atlanta.

The **CEAS I™** - Our **Certified Ergonomics Assessment Specialist I** certification provides basic skills for performing office and industrial ergonomics analysis using OSHA ergonomics assessment tools.

The Back School of Atlanta is a private organization dedicated to the importance of applying ergonomics principles and total wellness as a means to good health, injury prevention and increased productivity on the job and at home. Since 1979, we have provided the best in scientifically based and application oriented ergonomics services and products.

Please email me at shane@spinescottsdale.com if you are experiencing any low back or neck pain as a result of your workstation at home or at work.

Do you need a physician's referral to receive physical therapy services?

Direct Access is your ability to obtain services from a licensed physical therapist where and when you choose without a referral from a physician. You may be surprised to learn that you can access physical therapy directly without a physician's referral, but under "direct access" in Arizona, you can. However, your specific insurance carrier may have specific restrictions. Our front office will call your insurance company to find out if you need a prescription from your doctor for insurance to cover your osteoporosis program.

Please email me at shane@spinescottsdale.com should you have any questions or call 480-584-3334 to schedule an appointment.

What do all those letters mean?

Brittney's section

Brittney is currently attending Arizona State University. She is studying Kinesiology, which is the study of human movement. Brittney plans on attending physical therapy.

Gina's section

Gina moved here from Atlanta, Georgia. She is still trying to get in-state tuition so she can attend Arizona State University. Until then...she plans on watching the Atlanta Falcons lose this year.

Our clinic fish...

We regret to inform you that another clinic fish...Zarina the VIII... has passed away.

However, we are excited to announce our new fish: Zarina the IX. Gina and Brittney celebrate our new fish: Zarina the IX!

What our patients are saying?

“I want to express how satisfied I am with Shane’s care and treatment protocols. He has demonstrated an innate ability to provide the most effective rehabilitation program while having a genuine concern for my well being. I am feeling almost 100% in less than a month from seeing Shane.”

-George

“This was my first experience with physical therapy. Shane communicated very clearly which led to a relaxed and positive experience.”

-Marcia

“Shane is fantastic. Not only did he correct my immediate problem of lower back pain, he has taught me how to be proactive in maintaining back health. I highly recommend him.”

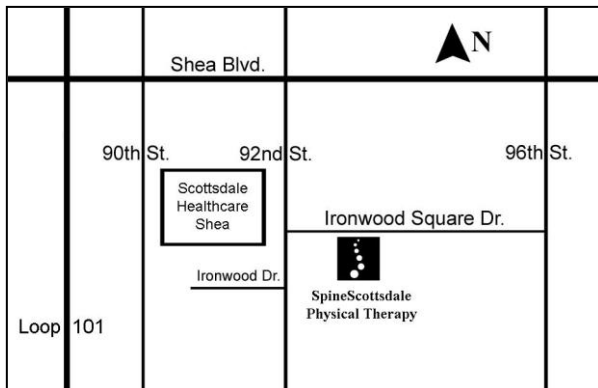

-Denise

“This has been a great experience and the results have been outstanding. Thank you for giving me my mobility back and relieving my pain. I would recommend Shane without exception!

-Stephanie

“I have been coming here for a few months. I could hardly stand when my therapy started and had major pain in both legs and lower back. Within a short time the pain in my legs is gone and the back feels great. Everyone on staff is friendly and makes it a fun time. I have been to other doctors for physical therapy and Shane and the staff has helped more than anywhere else.
